Academic Details

- **Bachelor of Engineering (B.E.) Computer Engineering**
Shridevi Institute of Engineering & Technology (VTU)
CGPA: 7.80
Graduation: 2025
- **Intermediate:** JKRR +2 High School, Chirkunda
Percentage: 50.4%
Year: 2020
- **Matriculation:** Aadarsh High School J.O.C.P, Chirkunda
Percentage: 54.40%
Year: 2018

Soft Skills

- Strong Communication and Collaboration
- Analytical Thinking and Problem-solving
- Team Collaboration and Coordination
- Time Management and Task Prioritization

Technical Skills

- **Programming Languages:**
Core Java, Python, JavaScript.
- **Frameworks:**
Spring Boot, **Spring MVC**, **React.js**
- **Technologies:**
Microservices, RESTful APIs, Docker, Kubernetes, **CI/CD**.
- **Web Technologies:**
HTML, CSS, JavaScript.
- **Databases:**
MySQL, MongoDB
- **Version Control:**
Git, GitHub, GitLab

Core Competencies

- Core Java Fundamentals
- Object-Oriented Programming
- Data Structures & Algorithms
- Database Management

Profile Summary

Goal-oriented and highly motivated Computer Science Engineering student with hands-on experience in full-stack development. Seeking full-time roles in software development to contribute to innovative projects while continuing to grow in a challenging environment.

Academic Projects

Microservices-Based Application Development

Tools: Spring Boot and MySQL

- Spring Boot and MySQL were used in the design and implementation of microservices-based applications.
- designed API Gateways, put distributed log tracing into place for smooth application tracking, and created a service registry to help microservices communicate with one another.
- Result: Improved modularity, scalability, and maintainability of the system, allowing for effective cross-service communication and monitoring.

Placement Management System

Tools: Spring Boot and MySQL

- created a web-based placement management system with a MySQL database and a Spring Boot backend.
- The frontend-backend integration was tested and validated using the Postman API, guaranteeing smooth operation and communication.
- Features include scheduling interviews, managing resumes, posting jobs, and registering students.
- Result: A 30% increase in placement process efficiency and a 30% decrease in manual coordination efforts

Establishing CI/CD Pipeline for Automated Deployments

Tools: GitHub Actions, GitLab CI/CD, Docker, Kubernetes, Minikube

- created a CI/CD pipeline to automate containerized application development, testing, and deployment.
- GitLab CI/CD and GitHub Actions were integrated to optimize deployment and continuous integration processes.
- Docker-in-Docker (DinD) was set up for effective image management and container builds.
- automated deployment with kubectl and helm to a local Kubernetes cluster (Minikube).
- increased release frequency, decreased manual intervention, and enhanced deployment efficiency.

E.M.P.A.T.H (Emotion Monitoring and Psychological Assistance Through Human-like Interaction)

Tools: HTML, CSS, JavaScript, Python, MongoDB

- created a voice-activated, AI-powered virtual psychiatrist chatbot. Context-aware dialogue and emotion detection were combined to give users sympathetic answers.
- Result: Developed a strong real-time mental health support system that incorporates database-driven response tracking and achieves high user engagement.

Certifications, Training & Internship

- **Java Programming Certification,** NPTL ,2022
- **Java Full stack Development Training,** TNS Foundation, 2024
Hands-on training in Java, Spring Boot, frontend technologies, and database integration for full-stack development.
- **Workshop on Web Application Development,** Qspider's Campus
Connect,2024

Extra-curricular Activities & Achievements

- Volunteered and participated in multiple hackathons at Shridevi Institute of Engineering & Technology.
- Under-14 District Level Cricket Player (2014).
- College Cricket Team Captain (2022–2023).
- Active participation in college events and tech talks.
